TensorGrip L10

Tensorgrip L10 is high performance industrial contact spray adhesive formulated for bonding laminate on porous or tough-to-bond materials.

Standard
Laminate

Properties

- Fast. High Tack
- Excellent high coverage
- 80% of final strength achieved immediately
- Full strength achieved in 24 hours
- Fast drying with long open time
- Excellent green strength and high heat resistance
- Over 105°C temperature resistant

Part No	Description	Price /1	Price /5	Per
TG.L10.22.C	L10 Laminate Adhesive 22L Canister	\$347.56	POA	ea

TensorGrip L17

TensorGrip L17 is a high tack laminate adhesive developed for bonding decorative surfaces to most common core substrates.

FRL

FRP/GRP

Metal/Aluminum
Sheeting

Standard
Laminate

Properties

- Class 1 Fire Rating
- High Temperature Resistance - up to 128°C
- Fast Application
- Very High Solids - high yield and coverage (up to 178m²)
- Portable system - easy to use onsite
- Eco-friendly - completely recyclable canister

TensorGrip

TensorGrip L31

TensorGrip® L31 is suitable for bonding HPL and paperback veneers to a variety of substrates including MDF, chipboard, plywood and many other timber sheet materials. It is designed for permanent bonding of materials where immediate bond strength and high heat resistance are required. The L31 can also be used for bonding sheet metals where surface preparation is very important; the surface must be degreased and lightly abraded with fine abrasive or non-woven material.

Properties

- Suitable for post forming
- High-Performance Neo-prene Based Resin
- Fast Drying
- Ultra Flat Glue Line
- High Heat Resistance
- High Solids
- Portable System
- Easy Application
- Clear

Part No	Description	Price /1	Price /5	Per
TG.L31.22.C	L31 22kg Canister	\$423.00	POA	ea

TensorGrip L32

TensorGrip L32 is a High Strength Contact Adhesive designed for multi purpose laminating. It also works well on edging and smooth surfaces such as metal and melamine.

Properties

- Quick drying with an extended open time
- High solids formula
- Excellent bond strength
- Low odour
- Excellent high coverage

Part No	Description	Price /1	Price /5	Per
TG.L32.22.C	L32 22kg Canister	\$432.11	POA	ea
		Price /1	Price /12	
TG.L32.500.A	L32 500ml Aerosol Can	\$26.31	\$22.81	ea

TensorGrip F20

TensorGrip F20 has been developed to provide very fast tack times for all upholstery, foam and carpet contact bonding situations. Its high solids and pressure sensitive adhesive technology, makes this product highly suited for all types of production processes.

It is designed to give a long open time and high tack level with good strength for general bond applications. (Not recommended for decorative high pressure laminate applications subjected to high temperatures).

Properties

- High tack
- Good green strength and good heat resistance
- Fast drying with long open time
- Good bond adhesion for a variety of materials including decorative surfaces, soft fabric, leather to most porous & non-porous substrates, eg. plywood, MDF, chipboard, sheet metal
- Portable & easy to use onsite
- Clear

Part No	Description	Price /1	Price /5	Per
TG.F20.22.C	F20 17.2kg Canister	\$335.24	POA	ea

TensorGrip F40

TensorGrip F40 is a highly aggressive adhesive for all demanding foam, fabric, upholstery and carpet applications. F40 is a non-chlorinated, high solids, synthetic rubber spray grade, multipurpose adhesive. It is designed for versatility with a long open time and high tack level with excellent strength for bonding a wide variety of substrates including foam, fabrics, upholstery, plywood, MDF and many others. F40 can also be used as a tackifier for carpet tiles.

Properties

- Fast drying with long open time
- Extremely high tack
- HAPs free
- Excellent room temperature contact bonds
- Excellent green strength and good heat resistance

Part No	Description	Price /1	Price /5	Per
TG.F40.22.C	F40 22 Litre Canister	\$379.79	POA	ea

TensorGrip X40

Tensor Grip X40 is developed in conjunction with the acoustic industry for all acoustic panel bonding applications. Tensor Grip X40 is a fast drying contact adhesive, suitable for all types of acoustic panel installation and applications including in-house and on-site bonding processes.

Brick

Concrete

Drywall

Insulation

MDF

Properties

- Non-Flammable adhesive
- Low VOC
- Excellent high coverage of up to 230m² per 22ltr canister
- 80% of final strength achieved immediately upon bonding
- Open time allows for repositionability for panel alignment prior to bonding
- Can be tinted for visibility of application coverage
- Full strength achieved in 24 hours, high strength long-term bond
- Fast drying 3-4 mins with excellent initial green strength bond
- High tack – adheres aggressively to nearly any surface
- Long open time 45-60 mins
- High (105°C) temperature heat resistant
- Low odour – suitable for Building Sites
- Low atomisation limiting overspray
- Portable airless self sufficient aerosol canister spray
- System with adjustable spray patterns

TensorGrip C101

TensorGrip C101 is a safe, effective citrus based cleaner developed to remove adhesive residue quickly and effectively.

Properties

- Biodegradable
- Compatible with most plastic
- Citrus scent
- Fast application
- Minimizes waste
- Minimizes equipment set-up and clean-up
- Not suitable as a pre-bonding surface cleaner

Part No	Description	Price /1	Price /12	Per
TG.C101.500.A	500ml Aerosol Can	\$28.66	\$26.61	ea

Tensor ActiBond

Tensor Actibond is a two part instant adhesive system comprising an adhesive and aerosol activator.

ActiBond is mainly used in the furniture industry where its instant bonding properties dramatically reduce assembly times for mitre joints when compared to conventional wood adhesives. The product is also suitable for instant bonding of MDF, rubber, PVC, metals etc.

Properties

- Bonds in 10 seconds!
- High viscosity
- Economical in use

Part No	Description	Price /1	Price /12	Per
Mitre1	50g Adhesive & 200ml Acti- vator	\$25.24	\$21.36	ea

The TENSOR adhesive range is the ultimate in "High Performance" spray adhesives. Designed to provide increased coverage, the high solids formulation ensures that premium bonds are achieved easily and consistently. Through the use of TENSOR adhesives you can be confident that your products will withstand the demands required in any domestic or commercial application.

TensorGrip Kick Off Kit

Using TensorGrip® is more than simply using an adhesive canister; it is having everything that you need to create that unbeatable bond as simply as possible. Each Kick Off Kit comes complete with a Professional Spray Gun, Hose, Roller & a TensorGrip branded Football, all the while incurring absolutely no additional cost to your first canister purchase.*

Part No	Description	Price /1	Price /5	Per
KOK-WEB	TG Kick Off Kit	\$317.69	POA	ea

TensorGrip Professional Spray Gun

The Professional Spray Gun is the ultimate spray gun with a 30 year proven track record. The Gun is a full aluminium body, with full finger trigger movement giving far less potential of RSI. The spray gun will fit all types of canister hoses and gives a perfect spray pattern when used with the Tensor range of products.

Kleiberit 303 Adhesive

Kleiberit D3 Adhesive 303, proven a millionfold, is a water resistant white glue for D3 bonding. It is single component glue which is suitable for hot and cold bonding with a short press time.

Fields of Application

- Bonding of windows and doors
- Bonding of partitions and parts
- Stair construction
- Bonding of laminates
- Bonding of tenon and finger joints
- Bonding of hard and exotic timbers
- High frequency bonding

Part No	Description	Price /1	Price /12	Per

Kleiberit Supratherm 436.6 Canister

One component/two component laminating dispersion for deep drawing, membrane and multiform pressing, as well as for hot sealing.

Fields of Application

- 3D bonding of thermoplastic furniture foils to MDF or other fine-grained wood-based materials.
- Excellent spraying properties
- Good activation
- As one component glue, high temperature resistance

Part No	Description	Price /1	Price /5	Per
33.26.436	Supratherm 436.3 26kg Canister	\$317.90	POA	ea

Kleiberit Hot Melt Adhesive

Kleiberit Hot Melt Pellets have a universal use, have good post-melt properties and are suited for pre-coating melamine resin edges.

Kleiberit 774.4

For bonding primed polyester edges, PVC and ABS edges, veneer and paper edges.

- For line speeds from 20 up to 60 m/min
- Medium viscosity
- Good green strength

Part No	Description	Price /1	Price /5	Per
33.25.774 WH	774.4 Hotmelt 25kg bag - White	\$160.00	\$149.20	ea
33.25.774 IV	774.4 Hotmelt 25kg bag - Ivory	\$160.00	\$149.20	ea

Kleiberit 779.6

Universal for nearly all edge material.

- For line speeds from 10 to 70 m/min
- Suitable for pre-coating edges

Part No	Description	Price /1	Price /5	Per
33.25.779	779.6 Hotmelt 25kg bag	\$182.70	\$171.95	ea

Kleiberit 788.7

For bonding ABS, PVC, polyester, paper, veneer and melamine resin edges.

- For line speeds from 5m/minute
- Very good melting properties
- Very long open time and tackiness

Part No	Description	Price /1	Price /5	Per

Kleiberit 569 Polyurethane Construction Adhesive

Kleiberit 569 is a polyurethane based adhesive for strong bonds, with a high resistance to water and temperature.

Fields of Application

Bonding of:

- Windows and doors, e.g. laminating of windows and joint bonding of doors
- Laminate bonding of wood and wood materials
- Joint bonding for outdoor use
- Joint bonding of MDF boards
- Bonding of mineral building boards
- Bonding of ceramic materials, concrete materials and hard foams

Part No	Description	Price /1	Price /12	Per
33.00.569	310ml Bottle	\$15.30	\$13.10	ea

Kleiberit PUR 501

Kleiberit PUR-Adhesive 501 is a one component, polyurethane adhesive for very strong bonds with high temperature resistance.

Fields of Application

- 501.0 - 20min open time
- 501.6 - 70min open time

Part No	Description	Open Time	Price /1	Price /12	Per
33.00.501	500g Bottle	20-25 mins	\$13.70	\$11.60	ea
33.06.501	500g Bottle	65-70 mins	\$13.70	\$11.60	ea

Kleiberit 308 Suprabond

Kleiberit Melamine Glue 308.0 is for strong bonding with high strength values. It is a single component glue with no mixing necessary, has excellent adhesion without sanding and has a tough elastic glue film which gives a good tool life.

Fields of Application

Bonding of decorative mouldings, wood and wood based materials to:

- DD-lacquers
- Polyester surfaces
- Acid-setting lacquers
- Nitro-lacquers
- Melamine resin surfaces and decorative laminates
